## BIOGRAPHY

Luca Cusolito's clandestine efforts have produced a series of multidimensional sculptural mosaics utilizing spray paint and glass. These pieces demonstrate textural elements that are seemingly illuminated, and are reminiscent of observing organic material through a microscope.

The occasional mixed-media assemblage have also found its way into the mix with an emphasis on the debauched and the esoteric. Cusolito seeks to create artwork that provokes response through color, light, and unexpected media.

Cusolito also has over 10 years of experience as a model for photographers, fine artists, makeup artists, and fashion designers.
